## Media Info 2020

## TRANZIT magazine

Launched on the market in 2001, Tranzit addresses managers working in the following fields of activity: domestic and international transport of goods and passengers, distribution and logistics, construction, agriculture and wood exploitation, retailers, manufacturers that make their own distribution, service shops and manufacturers/distributors of spare parts etc.

In consequence, the structure of the magazine includes the following permanent columns:

- Tests - test-drives and consumption tests for vans, trucks, trailers, buses and coaches
- Innovations - security systems, fleet management systems, ecological engines etc.
- Bodies - according to the specific of the transported goods
- Enquiries - related to the goods and passengers transportation market
- After-market - presentations, efficient maintenance solutions for fleets (tire service, lubricants, parts and components)
- Legislation - explained and in comparison with the legal environment in other countries
- Market research - and previsions for the transport and logistics market

**Tranzit includes the following supplements: Passenger transportation, „Transport persoane”** (every month) and **Tranzit VAN** (one publication on year)

## LOGISTICA magazine

Since 2006, Trafic Media publishes Logistica magazine, which is released on the market every two months. It addresses especially to retailers, logistics operators and those performing or renting distribution and warehousing activities.

Logistica is distributed through the same channels as Tranzit. In the months when Logistica is not published, the articles on this segment are included into the logistics

**Tranzit is the only Romanian magazine with international recognition, being member in the prestigious juries:**

## Number of copies

Tranzit is printed monthly in 10,000 copies. Approximately 4,800 of them are distributed directly by subscription, the rest being sold through a national distribution network including gas-stations and different general press distribution kiosks.

Logistica magazine is printed also in 10,000 copies and it is distributed together with Tranzit magazine in the sales points. The subscribers are not exactly the same for the two magazines.

## Catalogues Transport Market/After-Market

Every year, Traffic Media publishes a Catalogue specialized that include:

1. market analysis for distribution, transport (goods and passengers), logistics, real-estate sectors etc.
2. novelties in each field - technical, but also market novelties and launches/openings in the previous year etc.
3. Presentations of the companies operating on the market
4. Presentations of the products dedicated to these specific markets
5. Relevant statistics on each segment for the previous year and estimations for the year to come.

## TOP ROMANIAN LOGISTICS/TRANSPORT OPERATORS Catalogue

Every October, Traffic Media publishes a Catalogue 165/233 mm that include the turnovers and financial indicators of the TOP 100 transport companies and TOP 100 logistics operators together with profit rates, the number of employees, total surface of warehousing capacity/total number of trucks in the transport fleet etc.

The Catalogue includes also analysis of the real-estate market with presentations of the logistics and industrial space available on the market, average rent/sqm, total space rented in different cities of the country etc.

The Catalogue is available in English and it is printed in 7,000 copies/year, distributed to Tranzit subscribers and different interested people at the internal and international events Tranzit is organizing or participate at as a media partner.

## Conferences/Events

Every year Trafic Media organizes at least 4-5 events a year (dedicated to trucks operators, forwarders, bus and coach operators and logistics operators and retailers). Each conference is two days long (24 hours events) and gather the most important companies in the sectors related to transport, logistics and distribution (around 400 professionals each time). The companies who sell trucks, semitrailers, vans, tires, lubricants, software systems, forklifts, warehousing spaces etc. have the possibility to support the events as GOLD, SILVER and BRONZE partners.

The conferences include an exhibition area and offer the opportunity to the operators to inform themselves about new legislation, the Best Practices in the field in Romania and in Europe and about all the new systems that could increase the efficiency.

A novelty that has just been introduced in 2011, with the occasion of our magazines' 10<sup>th</sup> anniversary, is the *Tranzit Gala*, an event created in order to recognize and award the most efficient companies and people in logistics and transport. Awarded for the first time as a result of a difficult decision making process based on complex criteria, the *Tranzit Trophies* were highly desired wanted by the companies on the Romanian market and are now valued by the winners.

We continue to improve ourselves as professionals and the results of our efforts can be seen with each new conference, catalogue, magazine, and with each new and fresh idea we implement.

**For more information about the rate-cards, special issues and program of the conferences and locations, please contact us at:**
